Call for Current Pricing

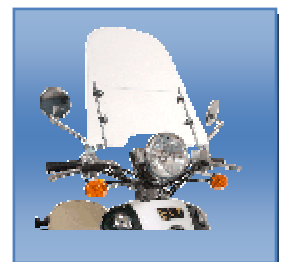

The modern, aerodynamic look of the 4000e plays off the innovative technology used to power the scooter. The new 2007 Gen II™ Hub Motor is larger and more powerful than previous models to power the 4000e with absolutely zero emissions. No exhaust. No carbon. No smog.

- **Electric Power** - Skip the Gas Pump
- Clean, Quiet and Smart
- Simple Power - Plugs into any standard household outlet. Takes only a few hours to charge.
- Practical Range - Up to 35 miles per charge with a maximum speed of 30 mph.

Bravo's EVT-4000e Scooters are DOT compliant and fully intended to be driven on public roads.
