

AESOP ENERGY OPTIONS

113 Hampton St.
Rock Hill SC 29730
803-328-9888

www.aesopsolar.com

How it works: Deposit food waste items at any time, on any day. Add up to 120 lbs per month. Items remain in the upper chamber, with "hot composting" conditions: mixing, air flow, heat, and moisture. The energy released destroys odors, pathogens, and seed germination. The compost is later transferred through a trap door to the lower cure tray chamber, where it continues to compost while you add fresh waste items to the upper chamber.

Endless supply of compost

Good for the garden

Great for the environment

Use it anywhere

No odors, worms, or bugs

Pro Edition: Available in designer colors

Plus Edition **\$299**

Sets the "industry standard" for composting:

Fully automatic and odor free. Continuous air flow and a powerful carbon filter remove odors. The unit is completely sealed.

Indoor or outdoor use, even in cold weather, rain, or snow.

Add food waste any time, any day, up to 120 lbs per month.

Waste items are processed continuously, mixing every 4 hours, until they are completely ground down to small particles Compost is ready every 2 weeks. A red light will tell you when to empty the machine.

Just open the door and remove the compost.

Available in black

WARRANTY: 1 year

PRO Edition **\$399**

Made for serious users. Same size as the Plus Edition, but with these additional features:

Stainless steel internal components for continuous heavy duty use

Ideal for large families, gourmet cooks, offices, or small restaurants

Foot pedal for convenient hands-free operation

Vacation mode - automatically activates after a period of inactivity to conserve energy, and optimize heat and mixing for curing

Security locking feature for public areas such as offices or restaurants (padlock not included)

Spare carbon filter included for years of hassle-free operation

WARRANTY: 3 years
