Rain Barrels

Rain Barrel Specifications:

Rain Water Solutions rain barrel is made of 100% recycled plastic and is manufactured in North Carolina.

Barrel Dimensions: 39"(h) x 30" (w)

Barrel Features:

- Huge 65 gallon capacity
- Large capacity overflow (**Hose Included**)
- Brass 3/4" spigot—easily connects to any standard size garden hose
- Easily attaches to your home's existing downspout (**Instructions Included**)
- Gravity fed system—requires no pumps or mechanical additions
- Manufactured to the highest quality and craftsmanship standards (**3 Year Warranty**)
- Two built in overflow ports, allowing you to route excess water away from the foundation
- System easily expands to allow for more water storage capacity
- Screen trap to keep out mosquitoes and other unwanted pests
- Bolt-on lid (**Child Resistant**)

\$199.00

Connect 2 or more barrels using the overflow to add more water capacity
