Solar & Energy  
Saving

Products

Available in Silver,  
Orange, or Green panels.  
**\$249.00**

The Voltaic **Backpack** is built tough. There are pockets and wire channels for multiple electronic devices and 1,850 cubic inches of storage space.

**4 watts of solar power/Included battery pack/ 11 adaptors** for easy connection to handheld electronics/Fully padded laptop sleeve for up to a 17" laptop (16.5" x 11" x 3") /Wire channels throughout the bag for headphones, bladder tubes etc. /Adjustable phone / MP3 pouch on the shoulder/Removable waist strap/High density padding in the shoulder straps and back/Mesh backing material for better air flow/ Shell uses 600D fabric made from recycled PET (soda bottles), which is tough, water resistant and light weight.

**\$199.9**

The Voltaic **Converter** is the most versatile model. It is a small light weight day bag with a compartment for a water bladder, so it is ideal for biking and hiking.

Multiple attachment mechanisms mean it can work as a pannier on a bicycle, a tank bag on a motorcycle, a saddle pack, or a day bag attached to a larger rucksack.

**\$229.00**

The Voltaic **Messenger** is reinforced and padded to carry and protect a laptop. It has large zipped pockets for documents, and multiple small pockets for electronic devices. Ideal for use in town or as a travel bag.

## LED Light Bulbs, Spotlights, and

**LED SP70 - 5W** (Equal to  
40w Incandescent Bulb)

**LED SP80 - 10W** (Equal to  
75w Incandescent Bulb)

**E27-3W LED Spot  
Light Bulb**

**LED 360 Degree**

**LED T-8 Tubes**

# Solargorilla

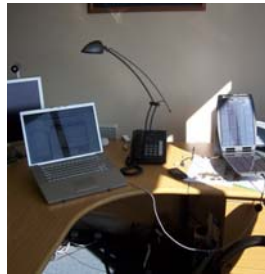

Power your laptop anywhere under the sun.

Solargorilla's 24 volt and 5 volt USB socket make it the ultimate renewable power station for your laptop, mobile phone, iPod and many more devices.

Solargorilla works via two PV (photovoltaic) solar panels, which generate electric current when they are exposed to light. The green LED on the solargorilla indicates the strength of charge - the more UV intensity - the better it will work! The technically advanced solar panels ensure superb power and

- Solargorilla features:
  - tough, rubberized casing
  - portable, fold-up design protects your solar panels when stored
  - water resistant design
  - slot to allow solargorilla to be suspended on vehicle or tent for outdoor use
  - 20V power socket out and standard 5v USB socket
  - green LED charging indicator
  - dimensions: 264 x 200 x 19mm (Light weight - 25oz)
  - 15 tips and 2 master cords (included) for most notebooks, iPod, iPhone, MP3/MP4, SatNavs, Nokia, Motorola, Samsung, LG, Sony Ericsson, etc.
  - High output capacity (10 Watts) in full sunshine.

\$250.00

# SolarMonkey

The **Solarmonkey** is here and ready to provide you with power - directly from the sun! The **Solarmonkey** can be connected directly to your phone, iPod, PDA, PSP and more, enabling you to recharge without the need for batteries or a main power supply! Get free play from your iPod - wherever you are. The **Solarmonkey** will also work under incandescent lights such as a table lamp with no need for batteries or main chargers.

The **Solarmonkey** comes with tips for the most popular makes of mobile phones and devices: Nokia & Mini Nokia, Motorola V66, Samsung E900, LG Chocolate, Sony Ericsson Wide connector, Mini USB, Femal USB charging tip, iPod connector, DC4.0 for Sony PSP.

Specially designed to work with the **Solarmonkey**, the new **Solarnut** reserves redundant solar energy so that if a sunny day turns cloudy while you're using your **Solarmonkey**, charging of your device is not affected.

**Solarnut** can also be used as a standalone emergency charger, providing you with up to a quarter of mobile phone power or at least 15 minutes of talk time. To make the most of your **Solarnut**, recharge it (via **Solarmonkey**) at least once every 2-3 months!

**So now there really will be sunshine on a rainy day!**

**\$80.00**

# SMART STRIP

Save time, money and energy while giving your computer or TV / Audio system superior surge protection. Never turn your computer or television peripherals on or off again! Available with or without Fax/Modem Protection. The **Smart Switch** allows you to plug in those bulky transformers without blocking other outlets on your surge protector.

The LCG5 **Smart Strip** has 10 total outlets 1 control - always hot, 3 Constant Hot (1 Transformer, 2 Standard), and 6 Switched (3 Transformer, 3 Standard).

LCG3 – 10 Outlets - **\$42.00**  
LCG4 – w/ Fax & Modem protection - **\$44.00**

## Energy Saving **Smart Strip** with Autoswitching Technology

Seven outlets work together, auto switching your devices on/off automatically, to save you money on your electric bills. Conveniently-spaced outlets and a 45-degree, angled space saver plug make the **Smart Strip** a friend

### Key Benefits Include:

- \* The **Smart Strip** makes shut down fast & easy.
- \* Turn on/off your computer or TV and your peripherals turn on/off automatically.
- \* Payback in a matter of weeks based on energy savings.
- \* No more turning off multiple switches.
- \* Peripherals that do not have power switches are not a problem anymore

### Simple to use:

- 1.) Plug computer or television into blue CONTROL outlet.
- 2.) Plug peripherals into white SWITCHED outlets to maximize energy savings.
- 3.) Plug other electronics into red CONSTANT outlets.

### Other Features:

- Recessed, lighted power switch
- Status indicator
- 6-Foot heavy-duty power cord
- 45 degree angled space saver plug

### Energy Saver Specifications:

- Ultra Safe Passive Current Sensor
- Patent-Pending Protective Hysteresis Circuit
- Uses ZERO POWER When The Switched Outlets Are Off
- Uses Less Than 1 Watt When Fully Energized

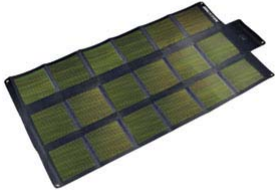

The SCG3 Smart Strip has 7 total outlets: 1 control, 2 constant hot, and 4 automatically switched.

SCG3 – 7 Outlets - **\$31.00**  
SCG4 – w/ Fax & Modem protection - **\$33.00**  
SCG5 - w/ Fax, Modem, & Coax protection - **\$35.00**

# BRUNTON SOLARIS

## Foldable Solar Panels

*The next generation of Solaris foldable solar technology is here.*

CIGS (Copper Indium Gallium diSelenide) is the most efficient thin film solar technology available. By maximizing performance while optimizing portability, it makes the Solaris 52 the most compact high output model available and the Solaris 26 a great choice for compact, high output solar power.

The Solaris 6 and 12 are the most compact models. CIGS technology maximizes performance while optimizing portability.

### Solar 52 Features (\$775.00)

- 12V output for operating laptops, video and digital cameras, and DVD players
- Overall dimensions open: 50" x 31.5"
- Overall dimensions closed: 11" x 9.5" x 2"
- Weight: 3 lb 8 oz
- Built-in blocking diode prevents reverse battery discharge
- Max Output: 52 watts

### Solaris 26 Features (\$390.00)

- 12V output for charging laptops or running cameras and DVD players
- Overall dimensions open: 21.5"x37.5"
- Overall dimensions folded: 11"x8.5"x1"
- Weight: 28 oz
- Max output: 26 watts

### Solaris 12 Features (\$260.00)

- Overall dimensions open: 29"x17.5"
- Weight: 11 oz
- Max output: 12 watts

### Solaris 6 Features (\$140.00)

- Overall dimensions open: 29"x9"
- Weight: 7.1 oz
- Max output: 6 watts

Adaptor cables that come with Solaris

- Female Cigarette Lighter Adaptor
- Alligator Clips
- Multi-Connector

# BRUNTON SolarRolls

## 4.5w, 9w, and 14w Flexible Solar Panels

### Flexible Solar Panels

- Amorphous solar cells for effective low-light performance
- Reverse flow protection
- Tefzel fluoropolymer construction for extreme durability
- Waterproof
- UV transparent
- Link multiple like-units together for even more output
- Rolls and stores in convenient storage tube
- Includes vehicle outlet cable & multi-linking cable
- One-year warranty

### SolarRoll 14 (\$410.00)

- 12"x57" open
- 17 oz
- Max output: 14 watts (15.4 Volts / 900 mA)
- Perfect for running satellite phones and charging laptops

### SolarRoll 9 (\$300.00)

- 12"x40" open
- 10.6 oz
- Max output: 9 watts (15.4 Volts / 600 mA)
- Ideal for running cell phones and charging digital and video cameras

### SolarRoll 4.5 (\$195.00)

- 12"x22" open
- 6.4 oz
- Max output: 4.5 watts (15.4 Volts / 300 mA)
- Designed for charging small electronics like cell phones and PDAs

**SolarController** - The box that offers worry-free charging for long-term use. The Solar Controller prevents overcharging 12 volt batteries when using solar panels that provide more than 10 watts of power. This compact unit can handle up to 100 watts of electricity and gives you maintenance free protection of both your solar panels and your batteries.

- Prevents overcharging of 12 volt batteries
- Use with up to 5 SolarRoll 14w units, or up to 3 Solaris 26w units
- Leave battery connected for constant charge monitoring
- Use with 12V solar panels and batteries only
- Designed for continuous charging with 10 watt and larger solar panels
- Handles up to 7 amps of array input, 100 watts of solar power
- Maintains battery in fully charged state
- Charge light indicates charging
- Full battery indication when charging is complete
- One-year warranty

\$35.00
