Solar Star, the leader in solar powered attic ventilation, brings you the most technologically-advanced, environmentally-friendly, ventilation solution today. Best of all, Solar Star brings you the solutions that cost nothing to operate. Imagine the savings.

By placing the unit where it is most effective, the highest point on the roof, it can properly circulate air and ventilate your attic space, transforming your home into a comfortable living environment. Powered by Solar Star's proprietary 10-watt solar panel, this breakthrough product has been designed to last season after season.

Pitched

It's a great alternative for north facing roofs when you need to improve exposure to the sun. It's ideal for tile roofs when used with the self-flashing Tile Roof Add-on Kit (sold separately)

Low Profile

This sleek, unobtrusive design is for most south facing roof applications

Prices range from \$390.00 to \$410.00

Convert Any Vent into a Solar-Powered Vent with Solar Star Conversion Kit

Now you can easily and quickly use the power of the sun to reduce attic heat and battle moisture

- Boost performance of existing passive vents.
- Transform energy consuming and noisy powered vents into quiet solar-powered vents.
- Powered by the sun. NO electrical hook-up, NO electrician and requires NO cost to operate.
- Choose any sunny roof location to install attractive solar panel.
