SunMate™ Hot Air Solar

The SunMate™ Solar Panel from Environmental Solar Systems is the ideal choice for homeowners that want environmentally friendly and low-cost alternative heat. EASY INSTALLATION!

SunMate™ solar panels allow you to enjoy FREE energy from the sun without any adverse effects on the natural world! The SunMate™ pulls cool air from your home, channels it through the absorber plate where it's warmed by energy from the sun, then circulates it back into your home. A built-in thermostat automatically turns on a blower when the absorber plate reaches 110° F and shuts off the blower at 90°F.

Features

- 10 Year warranty on the Solar Collector.
- 1 year warranty on electrical & mechanical parts.
- High efficiency and Reliability
- Easy to Install
- Can be used for Fresh Air intake for Tight Houses
